REPORT NO. [REDACTED]

**RETURN TO CIA LIBRARY**

1. The Nitrogen chemical factory in Târnăveni manufactures chlorine, caustic soda, aluminum, ferro-manganese, ammonia, cement, and glazed earthenware.
2. The Colorom (Colorom Fabrica de produse chimice) chemical factory in Codlea (near Brasov) manufactures aniline dyes and kindred products for textile, leather, and paper industries. The manager of the Colorom factory is a certain Klein. This plant is one of the best equipped chemical works in Rumania. For the production of sulphur black the Colorom factory gets sulphur and nitro-chloride benzene from the Soviet Union.
3. Nitramonia chemical works (Nitramonia explosive Uzinele chimice unite din Făgăraș) in Făgăraș produces nitric acid, ammonium nitrate, sodium nitrate, and other raw materials for explosives. About 400 to 500 men are employed at this factory.
4. The enterprise for chemical research and semi-industrial products (Intreprinderile chimice pentru cercetări si productii semi-industriale) is located at Dudești (near Bucharest). This plant plans to produce eleudrons (sic), sulfanilamides, ureas for medical use, and salicylic acid. A certain Renert is the head of this plant.
5. The Mărăsești chemical factory is located at Brasov. It produces sulphuric acid, hydrochloric acid, and iron sulphate.
6. The Josza Bela factory (formerly Phoenix works) in Baia Mare produces sulphuric acid, Glauber's salt, and sulphates of copper. The production of sulfanilamides is planned.
7. The Mărgina factory in Resița is engaged in carbonization operations and the production of acetone.
8. The Astra Vagoane factory in Orăștie specializes in tanning agents extracts.
9. The Brasov rubber factory (Fabrica de cauciuc Brasov) is only partially working on buna from the Soviet Union. Rubber articles in Rumania are scarce.
